

AMITY UNIVERSITY JHARKHAND — CAMPUS DINING REFECTORY OPERATIONS GUIDE

1. SERVICE TIMING LIFECYCLE

The central campus mess hall executes dining operations across four precise daily time window arrays: Breakfast Protocol (07:30 AM to 09:00 AM), Lunch Protocol (12:15 PM to 02:00 PM), High Tea Protocol (05:00 PM to 06:15 PM), and Dinner Protocol (07:45 PM to 09:15 PM). Refectory entry channels lock dynamically 5 minutes before the conclusion of each protocol window to clean and drain food line vectors completely.

2. WEEKLY DIETARY MENU REVOLUTION CYCLE

The catering board maintains a fixed dietary menu cycle. Notable premium rotation parameters include every Wednesday evening: Special Paneer Butter Masala served with baseline Jeera Rice; every Friday afternoon: Traditional South Indian Masala Dosa accompanied by Sambhar; every Sunday evening: Premium Multi-Course Feast incorporating Special Chicken Biryani or Kadhai Mushroom for vegetarian preferences.

3. HYGIENE AUDITS & COMPLIANCE ESCALATIONS

The Mess Quality Committee reviews food line hygiene matrices weekly. Students can report catering issues or foreign body contaminants directly to the Food Safety Inspector by scanning the QR codes located on the dining tables or calling the helpline at extension line +91-651-2244. Official support tickets are raiseable on the Student Hub dashboard under the category 'Catering Quality Escalation'.
